

## Physical Health Checks for people with Severe Mental Illness

This survey applies to you if you are

- 18+
- Live in Coventry or Warwickshire
- Your mental health has a negative impact on your daily life.

There is a well documented link between mental and physical health but uptake of annual physical health checks in the local area is low.

Warwickshire NHS CCG has asked us to speak to people to find out why and start thinking of ways in which we can make health checks more accessible. Can you help by sharing your thoughts and opinions?

You can access the survey by typing in the hyperlink below or scanning the QR code with your smart phone.
